

## iMedia Beliefs +

IT IS DIFFICULT,
BUT NOT IMPOSSIBLE,
TO CONDUCT STRICTLY
HONEST BUSINESS.

## कोशिश करने वालों की कभी हार नहीं होती

नन्हीं चींटी जब दाना लेकर चलती है, चढ़ती दीवारों पर, सौ बार फिसलती है। मन का विश्वास रगों में साहस भरता है, चढ़कर गिरना, गिरकर चढ़ना न अखरता है।

आख़िर उसकी मेहनत बेकार नहीं होती, कोशिश करने वालों की कभी हार नहीं होती।

हरिवंश राय बच्चन

## DRINK PURE, LIVE PURE

#### Expert Examination Before Purchasing of Cows

We take due care in selecting the right batch of cows, who compulsorily underen physical examination by veterinarians, who assess the body structure, fitness level and behavior as per the norms of veterinary science.

Before purchasing, we ourselves milk every selected now twice or thrice to ensure that milk yielding capacity is good and contain all essential nutrition value. free from diseases and she has well positioning of her udder and test without any deformities or anomalies.

# storing through Delaval Cow Health

We adhere to "Cow Health Transcending system" that provides accurate and reliable computerized and automated data through array of monitoring sensors that addresses various aspects of bowne health and specific airments auch as mastifis, calving start or prolonged calving, metabolic disorders and a number of general health issues. This system leverages various methods e.g. Milk Meters Measurement. Milk Component Analyzer', Cow Behavior Sensor to indicate udder problems, along with feeding and energy

daxing and nurturing at its best At our farm, cows enjoy nicely laid resting areas with adequate beight dimate control sheds and cubicles for comfortable living This facility reduces stress level while managing weather change and ensures sale housing with proper verblation. With all matal oofs and selfe distance cutscles, the resting area are cleared and disinfected on daily basis to provide them disease free wirenment. Our cows live adjacent to their calves in the sheds to feel them homely and caring atmosphere. Even tasted one sip of themils of our farm, will evoke you love, dedication and hard work of surs that have gone into the entire dairy process.

#### Temperature control system for reduce stress level (Mist and Fan System)

Extreme hot weather and excess humicity level causes overheating of body temperature and similarly cold situation debrofroate their health which results in a lower feed intalle, tittery behavior and decline in milk yield. We provide them a comfort zone of the range 10-24" as per the winter and summer season to ensure feel good atmosphere. To provide relief and soothe, mist particles are sprayed onto the body of the cow to wet the hair and associated. an system is used to evaporate the moisture as a way of cooling.

#### Asintaining Hygiene and cleanliness

Every cowis washed with medicated water and scaps on daily basis to maintain hygiens to minimize external ticks and parasits attack

#### loop and knee management

Our cows' hooves are the weakest link in their health and welfare. Cows that become lame -even slightly - will eat, drink and lie down eas. They will therefore produce less milk and it will be more difficult to get them to calf. Also they will need additional attention and work on an ongoing basis. Maximum level of bacterial and fungal deposits found in cows hoop. We take utmost care in cleaning of hoop and knee as they often exposes to bacteria and fungus. Our farm uses specially prepared deep solution with medicated water in cow walking path to minimize the bacterial and fungal deposits usually found in cow's hoop.

#### Comfortable cow mat for resting and sitting

We provide cow floor mats that are imported from Europe to ensure the resting of herds. It prevents cows and calves from falling as any occurrence of accident may results in larning that affects well seing, daily chores and productivity. These mats are also used for providing sanitary environment and orthopadic support as they usually come with insulating properties that cut away cold and humidity from concrete floors to protect against rheumatism and

#### culation and keeping parasite away

frooming brush relaxes them and ensures proper blood circulations with increased immunity. Automated grooming system in our farm cleanses the dust particles, parasite and other secterial agents on the eurlace of skin or cost of cost. Many studies suggest that grooming reduces stress and the abnormal sehavior consequently contented dows give better milk!

#### semination by bull not artificial method

For ensuring natural fertity of cow and taking care of her ovulation period, we observe the heat cycle through transcending system. We adopt natural way of insemination and discourage artificial inseminate method. We prefer inseminating by our farm developed but through "mounting built insemination procedure" in presence of eterinary doctors

See Good Food, Taste Good Food, Smell Good Food

"The cutest bloopers, the silly fights, the daring adventures, the funniest pranks to mass bunks were the never-to-be-forgotten days. It was a cozy autumn evening when the three friends were cherishing their glorious old school days while celebrating their togetherness. They surpassed all odds and difficulties together that stood their way.

Friendship is an eternal bond and The Three Guys designed the perfect

Guwahati being a commercial ground is one of the fastest growing cities in India. The distinct communities with its diverse culture and tradition breeding here led to the growth of several indigenous culinary styles along with its relishing aroma to celebrate the richness of the authentic Indian Cuisines.

> At Three Guys Restaurant, we strive to serve our guests with an exotic touch of taste. We ensure to provide you with an array of rich taste, texture, hospitality and a warm ambiance. The multi-cuisine restaurant with its variety flavor of continental, Indian, South Indian, Chinese, Mexican, Arabian and Fast Food delicacies will leave you wonder in delight. From that savoury starter to the lip smacking desserts, you will be enthralled with its alluring sensation.

> Kitty parties, birthday parties, hangouts or other events, this is a onestop for all your demands. Our aim is to prepare with love and serve with care. Blending with an assortment of aromatic spices and fresh ingredients, our contemporary cooking styles will tantalize you beyond your expectations.

We hope to leave you satisfied with a desire to come back again."

### What's in a name?

"A rose by any other name would smell as sweet" - William Shakespeare's play Romeo and Juliet. Unfortunately it cannot be applied for the name you give your business or brand. Your business name is how you will be recognized in the industry, how your customer will see you, & yes it'll be the name you put on your Business Cards.

# It really matters what your Company name is. It all about choosing the right name.

The naming process is an important part in the development of each business idea. iMedia has helped start-ups, entrepreneurs, companies to find a perfect name for their business idea / products / online website.

### Company Profile

MARMIK INDUSTRIES, India's leading manufacturing monoflament unit, is an integrated. research based company producing a wide range of quality, affordable products tested by professionals across geographies.

Core business of the group was established in 2011; today we have become the largest manufacturer of Monofilament years. Now the group has diversified its activities into the manufacturing of synthetic monoillament yarn made out of Polyester, Nylon-6, Nylon-66, PP, PBT. Nylon 610, Nylon 612 & HDPE with the state-of-the-art technology. Here we value of quality product without compromising customers requirement. We have huge production capacity which is almost 150 MTON/MONTH.

Marmik industries is driven by vision to achieve significant business in the global market by producing the most innovative products that effectively matches the specific purposes, needs of the final application.

Situated in a well developed industrial area in the state of Cajarat (India), Marmik industries consists of a family of well trained professionals dedicated towards manufacturing complete. range of high quality filaments. The latest automated systems are employed to monitor operating conditions, maximum performance quality and keep full track of process and product control.

Our product find applications in Embroidery, Iace, zari, fishing net, Velcro, agriculture, zipper, tooth brush, paint brush, industrial brushes, grass trimmer line, filter, paper, spacer & chaler fabric. We supply our products as perspecifications for satisfying the need of every customer.

All our products undergo stringent quality checks at every stage of manufacturing in modern. 'state-of-art' laboratory to ensure superior quality with 100 % consistency. We maintain the best possible combination of the monolfament parameters for a particular application. The parameters can be altered if required by our outtomers. We have all modern with latest technology Instrument for check quality of monolitament yarn.

### **Our Polymer Processing**

Standard polymers:

PE, PP, PET, PBT, TPE, PAG, PAGG, PAG/66, PAG10, Pag12

High Performance Polymers: PA 12, PPS, PEEK, PVDF

Zipper

Product by Application

Hair

We manufacture manofilament yarn in various diameters which are used in textile. The most important thing in this application is accuracy in product which we maintain. Mostly diameter is used for this pplication is 0.98 mm, 0.11 mm, 0.12 mm, 0.16 mm, 0.22 mm & 0.23 mm.

We manufacture monofilament yarn which is used for agriculture. These are widely used in

settenbure, commercial farming, green houses and backyard gurdens. Their fine quality and ability to

withstand hands wratter charges makes them popular amongst our customers. The product undergoes

etrictiquality checks to provide maximum customer satisfaction.

WHY AVIDITY

Avidity is a premium brand of Packaged Drinking Water brand. Since its inception, the Company has been taking complete care of our valuable customers.

### COMMITMENT IN EVERY PRODUCT

The beverages that you drink is not only of the highest purity, but it also packaged in high quality food grade PET bottles manufactured to the high quality standards.

### QUALITY STANDARDS & PURIFICATION PROCESS

The Manufacturing process is highly complex and multistage. The borewell water goes from holding tank to special filter and transferred to pressurized sand filters and carbon filters.

The water is than soften and sent to R.O. plant, in this process water freed from toxic and chemicals. Unique feature of our process is the blending of reverse osmosis and ultra filtration to give the purest firm of water with good taste.

"Quality is never an accident; it is always the result of high intention, sincere effort, intelligent direction and skillful execution; it represents the wise choice of many alternatives."

~ WILLIAM A. FOSTER
